

# Inter-Agency Games 2013

The 40<sup>th</sup> Inter-Agency Games took place from 24-28 April in Marina d'Or, Spain. UN staff and retirees from all over the UN system met and got to know each other through sports and other recreational activities and thereby improved mutual understanding and work relations. They were a huge success, especially seen from the Viennese perspective: our participants were part of teams that contributed to win in almost all disciplines! For the first time in many years, more than 830 people participated adding to the event's success. Next year's Games will be hosted by UN NY and will take place on the American continent. Judging from the high spirits of staff after the Games, it is evident that such an event contributes to their well-being and consequently that of the organizations.
