Aim

The W2C2 will offer a window to the VIC people for: Kayak, White Water swimming, Rafting, Standing Up Paddle (SUP)... It aims at establishing partnerships with existing structures (Austrian based clubs or schools) and provides English speaking activities in the framework of open / white water.

Background

Most of these activities require a reasonable infrastructure such as the availability of the equipment, instructor / guides, knowledge of the river(s) and therefore will have to be well prepared. There are in Vienna several structures that offer membership but with german and yearly commitment fees. The purpose of the W2C2 is to provide:

- a) A window to access some white water activities for VIC staff,
- b) Within English/ French speaking logistic,
- c) That enables the club members to access various white water activities based on a progressive and flexible approach, with a minimum but certain commitment.

Activities:

2-1 Kayac activities may be offered, for the first year via collaboration with Viennese based infrastructures namely: kayak Academy, Edelweiss , Union Kanu Klub, Kayak Austria...

2-2 Rafting activities may be organized with the Vienna Watersports Arena under certain condition for certain dates, in English.

2-3 White Water Swimming (Hydrospeed / Riverboarding), canoe, will be later organized based on the supporting structure (instructor) availability...

2-4 SUP rental, outing may be consisting in simple rental of the equipment at a preferential price, but could also be W2C2 group outing. No fixed class is planned for the moment, as this is more a leisure activity but it provides good physical training for open / white water activities.

2-5 Canoe activities will develop upon the expression of the needs from the W2C2 members during the first year of the club existence,
